

ProSUM Information Network 2nd Annual Event

18th October 2016

ProSUM Information Network

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 641999.

9 Practical forward look

James Horne & Sarah Downes

A The Project in 2017

James Horne

EU-UMKDP

- Consolidate CRM datasets
- Harvest data
- Develop end user applications & services
 - Includes maps & future scenarios
 - Based on requirements and available data
- TEST!
- Specification – revised, refined & finalised

Other key areas

- Trends & future scenarios
 - to 2020
- Stocks & flows model
- Identification & validation of characterisation methods
 - Products, components and waste
 - Mining waste

Protocols

- Developed for all aspects of data presented in the EU-UMKDP to
 - Update the dataset
 - Expand the dataset
 - Assess and categorise the quality of the dataset
- Separate, but harmonised, protocols for
 - Urban Mine
 - Stocks & Flows
 - Waste

Dissemination

- Final conference – Autumn 2017
 - Results
 - EU-UMKDP and user friendly portal
- Final report
- Recommendations

B Beyond the project

Sarah Downes

ProSUM “I am useful”

- Developing a fantastic knowledge base
- Need to ensure as a minimum that this knowledge base is kept up to date
- Heard and shared views on what you want to see going forward
- Business plan development will start on the EU-UMKDP and Information Network
 - Options to keep up to date
 - Options to expand - new wastes, better granularity, new services

The Information Network

- Join the Information Network if you want to be kept up to date
- Join the sampling and analysis SIG
- Provide feedback on the Harmonisation Paper
- Meetings next year
 - Testing of the EU-UMKDP with end-users in 2017
 - Final conference – protocols, data and intelligence, recommendations and the future of the EU-UMKDP and Information Network
- Publication of articles and reports
- Conferences and meetings
- Updates in the newsletter, website, twitter and LinkedIn

Thank you!
